

## **The Future of the IGF**

**Sent by the Internet Society Argentina Chapter, ISOC Ar**

The IGF has proved to be an excellent mechanism for enhancing the global discussion about public policy of Internet Governance with the vision of a people centred; development oriented an inclusive internet, as stated in the Tunis Agenda of the Information Society.

All stakeholders are able to debate on an equal footing and are also able to exchanging ideas of how to make Internet move towards the principles of the Tunis Agenda of the Information Society.

Although the IGF is coming to the end of its first mandate of five years, the Internet Society Argentina Chapter – ISOC Ar- wants to express its desire of the continuation of the IGF beyond its first mandate.
