FIRST French Youth & Teenagers Internet Governance Forum

On the 25\textsuperscript{th} of May 2011 took place First French Youth & Teenagers Internet Governance Forum at the Council of Europe, Strasbourg (France). Participants and active actors of the meeting were young people from French colleges, a number of them situated in socially difficult areas, aged from 13 to 16 years old. The issues discussed by Young people from the multistakeholder perspective were:

- Rights and responsibilities on the Internet
- Copyright
- Use of ICT during school time

Message to the Information Society Leaders

1. Rights and responsibilities on the Internet

   - Internationally recognized Charter on the safe and responsible use of the Internet, signed by users via ISPs
   - Creation of an international / national label of the quality and secure websites delivered to the websites owners
   - Continuation of awareness raising campaigns with more involvement of VIP

2. Copyright

   - Better adaptation of prices/ lower rates and the development of competitive packages and pre-paid cards
   - Creation of a bonus system/ available lists and information on legal downloading sites
   - Creation of dialogues, associating Youth and students concerning copyright issues and possible solutions

 together against cybercrime
