Preliminary Statistics
5 July 2022

Prepared by the IGF Secretariat

First version of the preliminary statistics developed on the basis of submitted inputs. No recategorization of inputs has been done.
The 2022 IGF MAG evaluated 246 workshop proposals.

Approximately 76% of members evaluated all assigned workshops (approx. 75% in 2021).

All 246 workshops are ranked by their average score. The average scores range from 4.7286 to 2.0333 (the highest score was 4.51 in 2021 – this year there are 14 proposals with scores of 4.5 or higher; the lowest score in 2021 was 2.34).

The standard deviation indicates the deviation of each workshop from its average score, or its internal variability. The standard deviation values range from 1.2801 to 0.065.
