

IGF Best Practice Forum on Cybersecurity

Kick-off call

Tuesday 2 May 2023

7:00am - 8:00am UTC

AGENDA

- 1. Welcome & introductions
- 2. Overview of the BPF Cybersecurity work
- 3. Plan for 2023
- 4. Outreach and engagement
- 5. Next steps

The **Best Practice Form on Cybersecurity** is an IGF intersessional activity to collect existing and emerging good practices from community experience. The bottom-up developed BPF outputs intend to contribute to an understanding of global good practice, and to serve as a resource to inform policy discussions, standards development, business decisions, as well as public understanding, awareness and discourse.

2018 Cybersecurity **Culture**, **Norms and Values** and norms development mechanisms.

2019 Cybersecurity **norms operationalization** best practices

Analysis of commonalities in **international and cross-stakeholder cybersecurity initiatives**.

2020 Lessons learned from **normative principles in global (non-cybersecurity) governance**. Best practices in relation to **international cybersecurity agreements**.

2021 Understanding the **drivers behind cybersecurity initiatives**. Would existing norms have been useful during real-life historical security incidents?

2022 Analysis of **frequency and trends of norm elements** in cybersecurity agreements. **Storytelling** as effective tool to learn form first responders and those most affected by incidents Ad hoc paper: Mythbusting: Cybercrime versus Cybersecurity

Timeline

BPF Cybersecurity 2023 coordinating team

Incident May 16

Questionnaire

IGF 2023 Second July 10

Open Intersessional

Draft BPF output September

IGF Kyoto October 8-12

Final BPF output October 31

BPF Lead-experts and co-facilitators

Mr Klée Aiken, Mr Bart Hogeveen Ms Sheetal Kumar

IGF MAG co-facilitators

Ms Hariniombonana Andriamampionona, Ms Carina Birarda, Ms Josephine Miliza

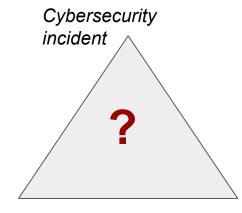

Supporting consultant IGF Secretariat

Mr Wim Degezelle

Best Practice Forum Cybersecurity - Objectives and work plan for 2023

Mandate:

To collect and evaluate cybersecurity events to present *first-person narratives from those most affected as victims or first responders* to <u>policy and norms developing deliberations</u>, so that high-level policy decisions are grounded in reality.

'Human security' effect

Expectations of responsible cyber behaviour (norms)

Discussion: preferred approach to inform mandate

Idea 1: collect high-profile cases for each region

- Pick 1 incident for each region
- Define impact on:
 - People
 - CI/CII
 - Government services
 - Technical (infra)structure
- Assess effect on observation of norms, and/or implementation

Idea 2: unpack 2-3 high-profile incidents

- Pick two incidents that are publicly well-documented and have affected international stability
- Produce a 'stereotypical' timeline for incident and crisis responses, and
- for each phase, determine the effect and impact of international rules & norms, and national cyber policies

Both options driven by crowdsourced analysis from the BPF CS community

Next Steps:

- Collecting potential case studies
 - Utilizing IGF BPF 2022 questionnaire

https://forms.gle/tw5ani54ettw68fM8

Submit by 16 May 2023

- Shaping the deliverable
- Identifying contributors

Outreach and engagement

Opportunities for the BPF to present its work and plans for 2023
Organisations, experts, forums to invite to the PNIF work streams

Suggestions?

Other IGF intersessional activities (NRIs, DCs)
