IGF Best Practice Forums (BPFs):

Guidance for New Proposals & Continuation of Existing BPFs

Structure for New BPF Proposals

I - NAMES OF AT LEAST TWO CO-FACILITATORS (MAG member + non-MAG members as appropriate)

II - BACKGROUND

This should include the relationship to multistakeholder internet governance discussions and the relevance for the different stakeholder communities.

III - DESCRIPTION:

Topics covered, proposed objectives and focus of the BPF

IV - OUTREACH PLAN AND MULTISTAKEHOLDER ENGAGEMENT IN THE WORK For all BPF proposals (continuing and new), this should mention the anticipated engagement from different parts of the multi-stakeholder community, including the names of organisations which have signaled a desire to participate, and intended outreach to attract further involvement in the work of the BPF.

Instructions for Existing BPFs

For BPFs requesting to be continued, please provide a short assessment of the BPF's activities, including a brief explanation of the process that led to the BPFs output, a list of active contributors (organizational and individual - by stakeholder group) for your last cycle of work, and any ways in which the BPF brought new people and expertise into the IGF.
