Dear, I am grateful for the opportunity to provide my opinion. I have participated remotely.

Taking Stock of 2016 programming, preparatory process, community intersessional activities and the 11th annual IGF:

What worked well?

- ✓ I want to highlight the transcription of the events, after the conclusion of the meeting was very useful.
- ✓ Audio and Video was good, mandatory for those of us who participated remotely.
- ✓ The topics covered were interesting and current.

What worked not so well?

- ✓ The information of the people involved in the panels was not complete, on the agenda
- ✓ The agenda item was a little extensive and overlapping.

B) Suggestions for improvements in 2017? (programming, preparatory processes, community intersessional activities and improvements for 12th annual meeting)

- ✓ View the presentations that expose the panelists, is important for the remotes.
- ✓ The panelists could indicate your name when you answer a question to a remote.
