

Dear MAG members,

the WG-Fundraising has met twice. The meeting summary from our first meeting is here: <https://www.intgovforum.org/multilingual/content/working-group-on-fundraising-wg-fun> <<https://www.intgovforum.org/multilingual/content/working-group-on-fundraising-wg-fun>>. The meeting summary from our 2nd meeting is still pending.

It was agreed that the WG would work on two parallel paths: (1) focused on formalizing various aspects of our collective fundraising efforts, clarifying roles and UN procedures, etc. and (2) advancing efforts focused on bringing in additional donors now.

Re the 2nd point above, it was suggested we could start with a short list of possible donors and work to an interim process. That process will be getting underway during our 3rd meeting, scheduled for later this week. In support of this point it was suggested that the WG work with the appropriate parties to:

- 1 - review intersessional activities (BPFs, DCs, CENB, etc.) and work with them to help their outreach efforts while promoting those activities to potential donors,
- 2 - to build and to show the importance of the IGF, highlight topics of expected high interest to specific stakeholder communities as well as to the MAG
- 3 - encourage MAG members to help identify potential donors

So, please consider supporting this effort.

And finally, participation in this WG is quite low (happily though everyone is very active), so please consider joining and perhaps even more importantly watch for subsequent emails specifically soliciting suggestions for possible donors.

Best,

Lynn
(on behalf of the WG-Fundraising)
